

@ dicomPACS® MobileView

# Web-based viewer for mobile and stationary devices

Images and documents anytime and anywhere

Mobile freedom inside and outside of veterinary practices and hospital

# MobileView

Images and documents anytime and anywhere

The web-based viewer **dicomPACS® MobileView** counts among the many extension modules of **dicomPACS® vet** diagnostic software. As a virtually independent browser, it allows the viewing of image material on mobile devices also outside a veterinary clinic or a practice. The vets staff can access all image material from the **dicomPACS® vet** system worldwide via a network connection.

In addition to mere diagnostic evaluation of images, the **dicomPACS® MobileView** viewer allows diagnostic reports to be captured and exported. Documents may be attached and exchanged. All diagnostic reports of a patient are always displayed. Individual diagnostic reports of a patient may be selected for exporting and formatted.

Since the **dicomPACS® MobileView** viewer can be used anywhere, it has a wide range of applications, allowing, for instance, the patient's further treatment to be discussed in the consulting room straight after the X-ray was taken. The mobile viewer is also a very helpful instrument in the operating room for orientation purposes.

## The main advantages at a glance:

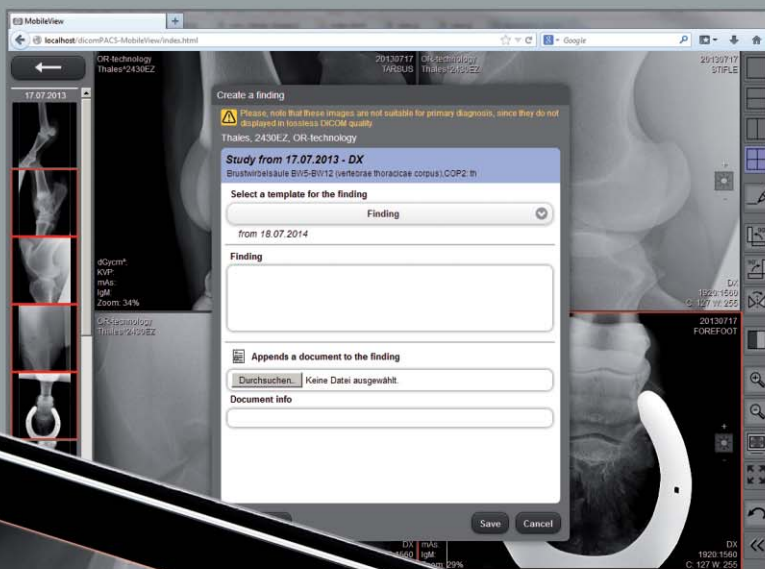

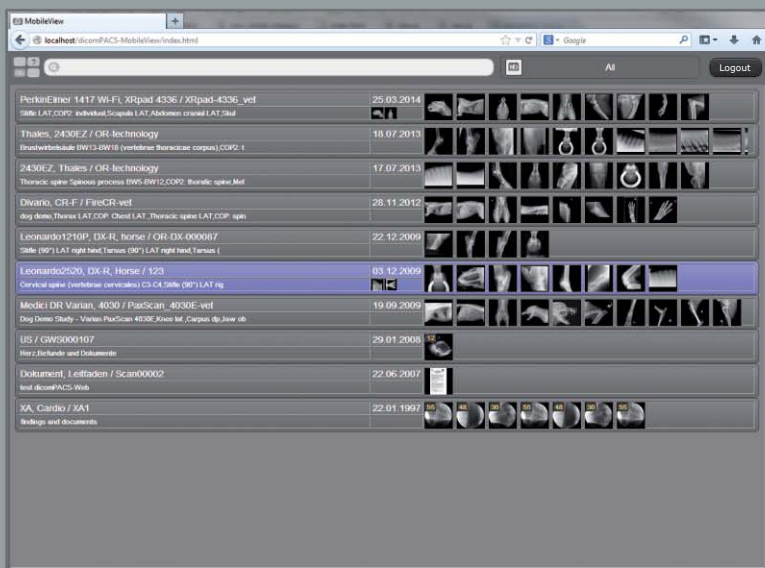

- High flexibility through the use within various internet browsers, including Microsoft Internet Explorer, Mozilla Firefox, Google Chrome, Safari 5, Safari for iPad and Android browser
- Intuitive operation
- Supports the multi-touch operating technology (e.g. zoom in and out with two-fingers)
- Supports full screen mode
- Allows accessing the **dicomPACS® DX-R** or **dicomPACS® vet** database without any additional modules
- Allows playing series (e.g. ultrasound)
- High loading speed with modern streaming technology

## Fields of application of **dicomPACS® MobileView**

**dicomPACS® MobileView** can be installed in addition to existing **dicomPACS® vet** diagnostic modules (diagnostic workstations). It is irrelevant whether the **dicomPACS® MobileView** software is used on a network PC (pure viewing workstation) or/ and on a mobile device.

Worldwide access to all image material is available via a network connection, e.g. VPN access via the internet, of the used mobile device to the central **dicomPACS® vet** system in the office or clinic.

### Licensing model

*dicomPACS® MobileView* is used on a concurrent user licensing model. This means that the number of concurrent users is pre-defined.

### Features of *MobileView*

The web-based viewer offers an important range of functions of a professional PACS viewer:

- Draw annotations
- Measurements
- Registration of diagnostic findings

- Flip and rotate images
- Adjust brightness / contrast
- Invert, zoom in / out
- Full screen, fit image
- PAN
- Scroll through image series
- Cine loop for multi frame series and CT/ MRI
- Export images and documents
- Print images and documents

# Vet portfolio

## Overview - products of OR Technology

### Medici DR Systems *vet*

**DR retrofits** - digital upgrade set for existing X-ray systems incl. **dicomPACS®DX-R** acquisition software, available for stationary and mobile X-ray machines

### Leonardo DR Systems *vet*

**DR suitcases** - compact suitcase solutions for portable X-ray incl. **dicomPACS®DX-R** acquisition software

### Amadeo X-ray Systems *vet*

**Complete digital X-ray systems** (incl. stand, Bucky, generator, flat panel etc. and incl. **dicomPACS®DX-R** acquisition software), mobile X-ray solutions as well as portable X-ray solutions

### Divario CR Systems *vet*

**CR solutions** - CR systems for digital X-ray with cassettes incl. **dicomPACS®DX-R** acquisition software

### X-ray Accessories

**Accessories for X-ray**  
e.g. radiation protection walls, gloves

### dicomPACS® *vet*

**Image management (PACS)** - comprises acquisition, processing, diagnosis, transfer and archiving of image material

### ORCA

**Cloud-based archive solution** - safe, long-term archiving of patient data with intelligent usage of internal databases communication platform with colleagues and specialists and transfer of image data to patients

**dicomPACS®DX-R**  
X-ray Acquisition Software

**X-ray acquisition software** [only for OEMs] - acquisition and diagnostic software for X-ray images from flat panels or CR systems
