Web-based viewer
for mobile and stationary devices
Images and documents anytime and anywhere
MobileView
Images and documents anytime and anywhere

The web-based viewer \textit{dicomPACS$ ^\textregistered $MobileView} counts among the many extension modules of \textit{dicomPACS$ ^\textregistered $vet} diagnostic software. As a virtually independent browser, it allows the viewing of image material on mobile devices also outside a veterinary clinic or a practice. The vets staff can access all image material from the \textit{dicomPACS$ ^\textregistered $vet} system worldwide via a network connection.

In addition to mere diagnostic evaluation of images, the \textit{dicomPACS$ ^\textregistered $MobileView} viewer allows diagnostic reports to be captured and exported. Documents may be attached and exchanged. All diagnostic reports of a patient are always displayed. Individual diagnostic reports of a patient may be selected for exporting and formatted.

Since the \textit{dicomPACS$ ^\textregistered $MobileView} viewer can be used anywhere, it has a wide range of applications, allowing, for instance, the patient's further treatment to be discussed in the consulting room straight after the X-ray was taken. The mobile viewer is also a very helpful instrument in the operating room for orientation purposes.

\begin{itemize}
  \item The main advantages at a glance:
  \begin{itemize}
    \item High flexibility through the use within various internet browsers, including Microsoft Internet Explorer, Mozilla Firefox, Google Chrome, Safari 5, Safari for iPad and Android browser
    \item Intuitive operation
    \item Supports the multi-touch operating technology (e.g. zoom in and out with two-fingers)
    \item Supports full screen mode
    \item Allows accessing the \textit{dicomPACS$ ^\textregistered $DX-R} or \textit{dicomPACS$ ^\textregistered $vet} database without any additional modules
    \item Allows playing series (e.g. ultrasound)
    \item High loading speed with modern streaming technology
  \end{itemize}
\end{itemize}

\textbf{Fields of application of \textit{dicomPACS$ ^\textregistered $MobileView}}

\textit{dicomPACS$ ^\textregistered $MobileView} can be installed in addition to existing \textit{dicomPACS$ ^\textregistered $vet} diagnostic modules (diagnostic workstations). It is irrelevant whether the \textit{dicomPACS$ ^\textregistered $MobileView} software is used on a network PC (pure viewing workstation) or/ and on a mobile device. Worldwide access to all image material is available via a network connection, e.g. VPN access via the internet, of the used mobile device to the central \textit{dicomPACS$ ^\textregistered $vet} system in the office or clinic.
Mobile freedom inside and outside of veterinary practices and hospital

Licensing model
dicomPACS® MobileView is used on a concurrent user licensing model. This means that the number of concurrent users is pre-defined.

- Flip and rotate images
- Invert, zoom in / out
- Full screen, fit image
- PAN
- Scroll through image series
- Cine loop for multi frame series and CT/ MRI
- Export images and documents
- Print images and documents
Overview - products of OR Technology

- **Medici DR Systems vet**
  - DR retrofits - digital upgrade set for existing X-ray systems incl. dicomPACS® DX-R acquisition software, available for stationary and mobile X-ray machines

- **Leonardo DR Systems vet**
  - DR suitcases - compact suitcase solutions for portable X-ray incl. dicomPACS® DX-R acquisition software

- **Amadeo X-ray Systems vet**
  - Complete digital X-ray systems (incl. stand, Bucky, generator, flat panel etc. and incl. dicomPACS® DX-R acquisition software), mobile X-ray solutions as well as portable X-ray solutions

- **Divario CR Systems vet**
  - CR solutions - CR systems for digital X-ray with cassettes incl. dicomPACS® DX-R acquisition software

- **X-ray Accessories**
  - Accessories for X-ray e.g. radiation protection walls, gloves

- **dicomPACS® vet**
  - Image management (PACS) - comprises acquisition, processing, diagnosis, transfer and archiving of image material

- **ORCA**
  - Cloud-based archive solution - safe, long-term archiving of patient data with intelligent usage of internal databases communication platform with colleagues and specialists and transfer of image data to patients

- **X-ray acquisition software** [only for OEMs] - acquisition and diagnostic software for X-ray images from flat panels or CR systems
