The PVC transport box offers optimal protection for transporting the Amadeo M mini. Loading the system into the box is easy thanks to the integrated ramp; there is no need to lift the system at all. The X-ray system can be transported in one piece, final assembly is not required.

- Well suited for quick relocation of the X-ray system
- Ribbed outer shell for extra sturdiness
- Developed for outdoor use: water repellent, shock proof, dust-tight
- High quality workmanship
- Foam padding inside the box encloses the X-ray system for a cushioning effect
- Highest transport safety due to robust design and special snap locks
- Loading via convenient built-in ramp
- Two trestle rolls and conveniently placed handholds make moving the box easy
Plastic transport box for **Amadeo M mini** X-ray system
